

DERO DECKER

Patent #8,950,592

The Next Level of Parking

The Dero Decker takes bike parking to the next level – literally. By stacking bikes on a two-tier system, capacity doubles. Unlike other two-tier systems our lift-assist top trays slide down inches from the ground, thus requiring only minimal lifting of the bike into the tray. The Dero Decker has a front wheel safety locking lever and tray dampers to provide safe lowering of upper trays. The near vertical lowered trays also reduce the required aisle space, giving the Dero Decker the smallest footprint on the market.
