SEPARATE SHIPPING BOX

- 2" x 2" x 4' galvanized steel mounting post

PLEASE CHECK THE ABOVE INVENTORY AND CALL YOUR DISTRIBUTOR IF ANY PARTS ARE MISSING.

INSTALLATION AND OPERATION INSTRUCTIONS

1. Select a good visible spot in your community or park where you want to install the Poly **DOGIPOT**® **DOGVALET**.
2. Dig a 7" diameter hole, approx. 18" deep into the soft ground. Insert the 4' galvanized steel post approx 18" into the hole filled with a 40 lb. bag of "ready to use concrete mix". Level the post in straight vertical position and let concrete dry for at least 12 hours.
3. After concrete is dry, post should be sturdy and sticking 30" out of the ground. Slide the Poly **DOGIPOT**® **DOGVALET**'s inset back wall completely over the 2" x 2" mounting post (see illustration A below). Use the two (2) 3" bolts, washers and locknuts to fasten the mounting post to the container through the pre-drilled holes inside the **DOGVALET** body. You may have to wiggle the **DOGVALET** slightly up and down on the mounting post to get the bolts through the holes in the **DOGVALET** and the mounting post.
4. Insert one of the enclosed OXO-BIODEGRADABLE **DOGIPOT**® Trash Liner Bags into the container body (fold over the upper edge of the container) (see illustration B below).
5. To replace the rolls of OXO-BIODEGRADABLE **DOGIPOT**® Litter Pick Up Bags, pull out the empty box, remove the diamond shaped perforated tab from a new bag/roll box and push box in place on the lid shelf. The lid dispenser opening should match the box opening and the lettering on the box should not be upside down. Be sure that the bags will be dispensed following the upper wall of the dispenser opening (see Illustration C below). Close the lid and pull the first bag out by finding the raw edge of the first bag through the dispenser opening.
6. **ENJOY WATCHING PET OWNERS PICK UP AFTER THEIR DOGS!**
