Choose from Colored panels or Clear Panels

Product Description

Add adventure to your aquatic area with a pool side climbing wall. Kersplash[®] is suited for indoor or outdoor use and is available in two panel styles. Kersplash[®]; Crystal Clear[®]; complements any aquatic center and offers visibility to areas behind the wall. Kersplash[®]; Color makes a bold visual statement with brightly colored panels.

Both styles are made from UV- and chlorine-resistant materials and feature red, yellow and orange Groperz[®] Hand Holds. The Kersplash[®] frame is constructed of high-quality, 100% passivated stainless steel to withstand harsh pool environments.

Materials:

- Clear panels are made of polycarbonate - Colored panels are made from high-density polyethylene - Hand holds are made from a proprietary hybrid resin with a formulated UV-inhibited blend - Stainless steel hardware **Pool**

Wall Package Includes:

- Pool wall panels - Stainless steel structure - Groperz™ Hand Holds with stainless steel mounting hardware - Rules & guidelines sign and safety - Care and maintenance instructions **Required Clearance Area:**
- 35" of deck space - 4' clearance behind wall on walkway - 5' on either side of your wall - 10' drop zone - Pool depth determines maximum height of wall

A "drop zone" is recommended at the base to keep swimmers out of the area.
