Capacity: 2-4 bikes

Frame: 1.5" OD 11 Gauge Tube

Product Description

The Bike Bike Rack is an eye-catching, functional piece of street art that playfully reminds us that we could be riding our bike today, and rewards those that do with a secure, convenient place to park it.

This rack forces bikes to lock up parallel with the rack, helping to keep right of ways clear. The rack allows for the wheels and frame of the bike to be secured using a u-style bike lock.

Brand Your Bike Rack:

A custom rack with your logo can increase awareness of your business and show that your company supports clean, healthy forms of transportation.

Since you're parking bikes at the same time, you send a great message to all of your customers or members that your company supports alternative forms of transportation.
