## Product Summary

**Dimensions:** 16"W x 35"H x 2.375"D

**Capacity:** 2 bikes

**Frame:** 2" schedule 40 pipe & 1.5" OD 11 gauge tube

## Product Description

The Bike Hitch is an attractive and space efficient bike rack. This hitch was specifically designed for sidewalks and other narrow space applications. The design of this bicycle rack restricts bikes to parking parallel with the rack, so bikes won't intrude into the sidewalk or street.

### **Brand Your Bike Rack:**

A custom rack with your logo can increase awareness of your business and show that your company supports clean, healthy forms of transportation.

Since you're parking bikes at the same time, you send a great message to all of your customers or members that your company supports alternative forms of transportation.
