Product Summary

(request a quote)

Each grandstand structure is custom-designed for each individual location to guarantee correct sizing and compliance with local building codes. Please call and speak with a sales representative to have a system designed for your needs.

Product Description

These permanent grandstands are custom-built to your exact requirements and site considerations, including your desired seating capacity, available space, spectator flow, and sightlines.

Our custom-built grandstand designs have been used at racetracks, college campuses, baseball stadiums, and numerous other spectator seating areas nationwide. Increasing seating capacity over standard bleacher systems is a guaranteed way to attract additional visitors to your location.

Contact a sales representative today to discuss your personal project and get a system designed specifically for your needs.

Customization - Create an inclusive environment for all spectators by adding ramps to your grandstand design -

Mitered layouts enable grandstands to be integrated into spaces of all shapes and sizes - Enclose the grandstand with vertical picket guardrails to add a bit of luxury to your grandstand - Integrate rear exiting to your grandstand to allow for multiple exit point after events come to a close - Enclose the underside of your grandstand and utilize the space for storage for field maintenance or team equipment **Additional Options Available** - Guardrail Options - Enclosures - Exit and access options

Local codes will vary from region to region and will also change over time. It is the **buyer's responsibility** to check local

codes for compliance.
