Product Description

Harvesting rain water with the Impressions Stone 65 Gallon Rain Barrel rainwater-collection system will help protect your lawn and garden during periods of drought, and it will also help you save money! This 65 gallon rain barrel is one of the only wicker designs that will never unravel or fray with a deep welled top so you can plant an array of floral arrangements or even a small herb or vegetable garden, and an integrated overflow channel automatically diverts all overflow water to the front of the barrel to keeps your foundation from flooding. Included with this [rain barrel](#) are the two offset spigots that allow you to place a bucket under the higher one and connect a hose to the lower. The large opening which can be used for 2x3 or 3x4 downspouts is covered with a soft, fine mesh, plastic screen. This screen keeps out heavy debris, insects, animals, minimizes hose blockages, and keeps your rain water pure for your piece of mind.

Features:

65 gallon **rain barrel** and planter top

- Never-fray wicker texture - Meshed screen blocks debris from entering your water supply - Two spigot locations for buckets AND hoses - Made with FDA approved and BPA-free polyethylene - Equipped with a sturdy brass spigot - Routed channel diverts excess water to the front of the barrel to avoid flooding your foundation - Dual spigot locations for hose or five gallon bucket - Made in the USA - 1 year Limited Manufacturer's Warranty
