Product Description

Collecting rainwater with this 50 gallon rain barrel will help protect your lawn and garden during periods of drought, and it will also help you save money! The Savannah Elevated Garden Rain Barrel feature a thick and durable polyethylene resin which holds up to the harshest elements, the exterior has the appearance of a colonial planter. The strong, regal lines and trim on the exterior make it an accent piece on your homes exterior and not something that just sticks to your house. The flat back design optimizes space used and allows you to position the barrel close to walls or flat areas. Included with this [rain barrel](#) are two offset spigots made from brass for hose hook up that can be linked to other container for extra rainwater storage. The large opening which can be used for 2x3 or 3x4 downspouts is covered with a soft, fine mesh, plastic screen help keeps out heavy debris, insects, animals, minimizes hose blockages, and keeps your rain water pure for your piece of mind.

Features: - 50 Gallon capacity rain barrel and planter top - Colonial style - Self draining, 1 cubic foot planter top -

Meshed screen blocks debris from entering your water supply - Flat back design sits tightly against any outside wall - Equipped with a sturdy brass spigot - Routed channel diverts excess water to the front of the barrel to avoid flooding your foundation - Dual spigot locations for hose or five gallon bucket - 1-year manufacturer's warranty - Made in the USA
