Product Summary

Age Range: 5-12 years

Child Capacity: 4-8

Fall Height: 96"

Safety Zone: 12' 4" x 21' 7"

Product Description

The square net climber is a classic design that blends perfectly in any playground or other play area. With perfectly spaced out squares and sturdy ropes for children to climb, this climber can hold 5-10 children at a time. Since there is no barrier at the top of the net, kids can climb all the way up it and then down the other side. The width of the net also gives them space to climb from side to side, or for two or more users to climb up one side of it at the same time. This means that children will be able to race their friends from one side to the other. The net is free standing, which makes it easy to install just about anywhere, and since it is also transparent, it does not block any of your play area from view.
