

# Starship Orbiter

Meets National Standards for: ✓ ASTM F1487-17 ✓ CPSC Guidelines #325

## Product Description

Children will be all too eager to blast off on the Starship Orbiter. Combining the excitement of roundabout with the challenge of a rope climber, the Starship Orbiter brings new ways to play on the playground. The main portion is an angled set of ropes with a small door near ground level that allows children to utilize the interior surfaces as an enclosed merry-go-round. On the outside, kids will face the additional difficulty of a moving surface that rocks as they move. The system works on children's vestibular senses, helping them to gain a greater sense of balance and how to handle moving situations. Socialization is automatically taught, as half of the fun requires another individual to spin it. The Starship Orbiter comes in a variety of powder coat paint colors to match your theme or to inspire your color palette. For scale, the last image includes an American male figure of average height.

## Product Specifications

**Model Number:** PFN008

**Age Range:** 2-12 years

**Child Capacity:** 13-18

**Fall Height:** 60"

**Product Type:** Merry-Go-Rounds

**Safety Zone:** 24' 9" x 24' 9"
