

# 2 Pods Free Standing Pod Climber

Meets National Standards for: ✓ ASTM F1487-17 ✓ CPSC Guidelines #325

## Product Description

The 2 Pods Free Standing Pod Climber is a simple individual pod climber with two steps. These cleverly designed pod steps are circular, which allows them to be climbed from any side. They also have a convenient vertical safety rail which allows children of any height to easily hold onto it as they stand on the top step. The two-step model is particularly safe for young children since it has a very low height. These pod climber structures are especially great when installed close together, allowing a series of steps for children to navigate. They are installed in-ground at a reasonable depth, which makes them highly stable. Any number of individual pod climbers can be installed next to each other in any arrangement, allowing infinite possibilities for customization. They can even be ordered in different colors, allowing you to create any color combination that you can imagine.

## Product Specifications

**Age Range:** 2-5 years

**Child Capacity:** 1-2

**Fall Height:** 24"

**Product Type:** Climbing

**Safety Zone:** 13' 3" x 13' 3"
