

# 1 Pod Free Standing Pod Climber

Meets National Standards for: ✓ ASTM F1487-17 ✓ CPSC Guidelines #325

## Product Description

The 1 Pod Free Standing Pod Climber is our most basic model of pod climber with a single step. Although it is simple, it can be installed alongside other, taller models to create a series of steps. These individual freestanding pod climbers allow a great degree of customization, since any number of them can be combined and arranged in any order or pattern. For a set of pod climbers which is primarily intended to be used by young children, shorter pod climbers such as this one are particularly nice. The round steps of the pod climbers are designed to be climbable from any side, and the vertical hand rail gives children a place to hold on to as they stand on it. Pod climbers are securely installed into the ground which makes them highly stable. Each individual pod climber is available in a variety of different colors.

## Product Specifications

**Age Range:** 2-5 years

**Child Capacity:** 1-2

**Fall Height:** 12"

**Product Type:** Climbing

**Safety Zone:** 13' 3" x 13' 3"
