

Flip Flopper

Meets National Standards for: ✓ ASTM F1487-17 ✓ CPSC Guidelines #325

Product Description

The Flip Flopper is an exciting twist to a playground classic. This bouncy seesaw combines safety and fun with companionship. Although this unit can be played on alone, the excitement increases exponentially when played on by two children. Each kid will stand on the rotationally-molded plastic seats, grab the powder-coat painted steel handle, and bounce to their heart's content. The handle allows children to correct their balance - helping them to stay firmly on the cute crab seat. The Flip Flopper would be a great addition to elementary schools, kindergartens and even churchyards or campgrounds. It can handle most outdoor conditions with its hardy construction. The steel can be colored in a variety of shades - becoming a one-of-a-kind piece of playground equipment. This unit will ignite friendships, create smiles and make cherished memories for all who play on it.

Product Specifications

Model Number: PFS061
Age Range: 5-12 years
Child Capacity: 2
Fall Height: 24"
Product Type: Spring Rides
Safety Zone: 13' 11" x 20' 9"
