

# Curved Post PE Climbing Wall

Meets National Standards for: ✓ ASTM F1487-17 ✓ CPSC Guidelines #325

## Product Description

Everyone knows that kids enjoy the thrill of ascending high objects and testing just how close to the sky they can get. And that makes easily scalable objects like our Curved Post PE Climbing Wall ideal installations to parks and playgrounds. The attractively designed unit features a multitude of quirkily shaped hand and footholds. These grips are perfectly spaced to facilitate a natural escalation via the alternating motion of children's upper and lower limbs. Climbing is a gross motor skill beneficial to enhance during key growth stages in children's lives. For this reason, obstacles like this climber are great to include in an area's design as a positive accessory that will sneak a bit of exercise into a kids' day of fun. This commercial-grade playground item is built of a solid galvanized steel framework and its plastic wall features a dazzling coat of powder-coated paint. The materials used are proven to withstand the test of time and hold up in inclement weather for years to come.

## Product Specifications
