

Curved Post Panel Climber

Meets National Standards for: ✓ ASTM F1487-17 ✓ CPSC Guidelines #325

Product Description

Entice adventurous children with the Curved Post Panel Climber. A simple yet fun exercise, Climbing enhances a child's gross motor skill development and helps them strengthen large muscle groups in their arms, legs, and torso. Active use of these body parts promotes healthy blood flow and promotes physical conditioning. A child's mental acuity is also enhanced through climbing as they're required to think up systematic plans in order to successfully rise to the top of a chosen structure. This structure's artful arrangement of grips and sectional breaks makes for a visually exciting climber that naturally draws the eye. The curved vertical panel is composed of a sturdy rotational mold plastic attached between two resilient galvanized steel posts. Customers looking to best integrate the Curved Post Panel Climber into an existing color scheme should note that you're not limited to the colors depicted. A wide range of alternate color combinations is possible to powder coat onto the surface of the structure (custom coloring ships ...

Product Specifications

Age Range: 5-12 years

Child Capacity: 2-5

Fall Height: 96"

Post Diameter: 4.5-inch

Product Type: Get Physical

Safety Zone: 12' 5" x 16' 3"
