

Meets National Standards for: ✓ ASTM F1487-17 ✓ CPSC Guidelines #325

Product Description

Children will scramble in every direction as they seek to conquer the Nebular Net. The round shape that is held from the outside creates an inner climbing area that can be scaled by multiple children at once. The stacking of squares and hexagons creates a surface with multiple faces. Kids will work their core, arm and leg muscles as they climb. Parents and guardians can take heart in the true stability and strength of this structure, which comes from the posts set at each corner. The posts are all powder coat painted in your choice of colors from our wide selection of weather and rust resistant paints. The rope themselves are steel cored with a nylon exterior. Nebular Net is designed for school aged children as it requires for children to be able to support their body weight as they hold on and climb. It can compliment an existing structure at a park, school or even an after-school program. Its compact size makes it easy to add into areas with limited space. For better understanding of the scale, the last image features an American male of average height. The Nebular Net will send...

Product Specifications

Age Range: 5-12 years

Child Capacity: 10-14

Fall Height: 90"

Product Type: Rope Net

Safety Zone: 19' 8" x 19' 8"
