

Boulder Climber with Slide

Meets National Standards for: ✓ ASTM F1487-17 ✓ CPSC Guidelines #325

Product Description

The Boulder Climber with Slide allows you to combine nature and fun in one. This structure uses a Boulder Climber instead of stairs as a way to reach the slide. Safe for kids, the climber is a solid piece of plastic and features flat ledges for easy climbing. It is also smooth to touch so kids can climb it all day long. The top of the plastic rock is flat so kids can relax and walk to the slide's platform. From there they can glide down the straight slide all the way to the ground. Kids can make their way back up and do it all over again. This also allows for countless kids to play at once, creating a great social activity. The boulder and the slide can be changed to a variety of different color options so you can match it with other equipment or create unique color combinations.

Product Specifications

Age Range: 5-12 years

Child Capacity: 8-13

Fall Height: 48"

Post Diameter: 4.5-inch

Product Type: Get Physical

Safety Zone: 18' 2" x 30' 1"
